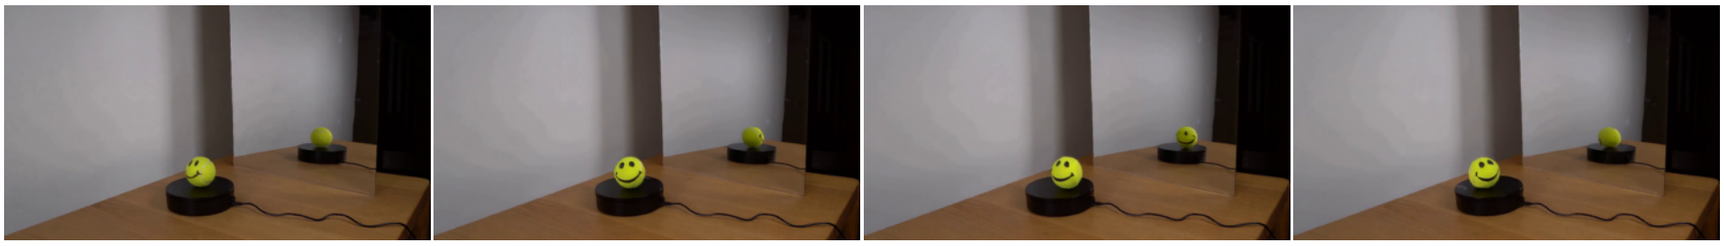
(a) models: ltx-2-19b-dev

prompt:
The person in blue launches the yellow frisbee across the lawn. The frisbee flies through the air, following a parabolic trajectory before landing on the grass.



(b) models: cosmos-predict2.5-2b

prompt:
A tennis ball with a smiley face drawn on it is slowly rotating on a black rotating platform that rotates clockwise in front of a mirror and reflecting the side of the ball that has no smiley face. As the ball rotates, its reflection in the mirror will continuously change, eventually revealing the smiley face. Static shot with no camera movement.

(c) models: cosmos-predict2.5-14b

prompt:
A person ties a bow tie while standing in front of a mirror, adjusting the knot's symmetry.

(d) models: cosmos-predict2.5-2b

prompt:
A hammer is thrown, landing in a grassy field, leaving a small crater in the turf.

(e) models: wan2.2-i2v-a14b

prompt:
A sleek, gold car drives forward along a dusty dirt road under a bright, clear sky. The strong sunlight casts a sharp, dark shadow of the moving vehicle, which shifts and travels across the unpaved ground beside it as the car advances.
