(a) models: omniweaving

prompt:
A person mops up a puddle of water on a concrete floor, the water disappearing as the mop passes.

(b) models: ltx-2.3-22b-dev

prompt:
A drop kick sends a water balloon arcing through the air; the balloon bursts upon impact with the ground.

(c) models: cosmos-predict2.5-2b

prompt:
The rising ocean tide floods a sandy beach, surrounding several grounded boats. As the water deepens, it lifts the vessels off the wet sand, causing them to become buoyant and float. The boats bob gently on the surface of the incoming water while a person walks along the shoreline.

(d) models: cosmos-predict2.5-2b

prompt:
A pair of black leather boots is slowly lowered into a clear glass bowl filled with water. As the boots submerge, they displace the liquid, causing the water level to steadily rise until it reaches the top rim of the bowl.

(e) models: wan2.2-i2v-a14b

prompt:
A shiny silver espresso machine sits against an orange wall, next to a bright green coffee bag and a bean-filled grinder. Dark, rich espresso begins to flow smoothly from the machine's metal spout, streaming downward in a steady, continuous liquid pour.
